St. Simons Island, Ga. 31522
(912) 634-4966
(912) 6346542**

After 24 hours begin the following:

1. Wash area twice a day with soap and water
2. Apply small amount of polysporin
3. Apply band-aid or gauze dressing

Biopsy site will heal with a red ring and yellow center, if you have any concerns please call the office immediately. Within 10-12 days you will receive a call if your biopsy was abnormal, otherwise feel free to call for your biopsy results.
